UNAUDITED INTERIM FINANCIAL REPORT FOR THE YEAR ENDED 30 JUNE 2020

NOTES TO THE INTERIM FINANCIAL REPORT

A1 The condensed consolidated interim financial report is unaudited and has been prepared in accordance with MFRS 134, Interim Financial Reporting Standards in Malaysia and IAS 34, Interim Financial Reporting, requirements of the Companies Act 2016 and applicable disclosure provisions of the Listing Requirements of Bursa Malaysia Securities Berhad. The condensed consolidated interim financial report should be read in conjunction with the audited financial statements of the Group for the financial period ended 30 June 2019. These explanatory notes, attached to the condensed consolidated interim financial report, provide an explanation of the events and transactions that are significant to the understanding of the changes in the financial position and performance of the Group since the financial period ended 30 June 2019.

The accounting policies and methods of computations used in the preparation of the financial statements are consistent with those adopted in the audited financial statements for the period ended 30 June 2019 except the adoption of the new or revised standards, IC Interpretation and amendments to standards.

The Group has not early adopted new or revised standards and amendments to standards that have been issued but not yet effective for the accounting period beginning 1 July 2019.

The initial application of the MFRSs, Amendments to MFRSs and IC Interpretations, which will be applied prospectively or which requires extended disclosures, is not expected to have any significant financial impact to the financial statements of the Group upon their first adoption except for the following:

#### MFRS 16: Leases

MFRS 16 has replaced MFRS 117 Leases, IC Interpretation 4 Determining whether an Arrangement contains a Lease, IC Interpretation 115 Operating Lease-Incentives and IC Interpretation 127 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single, on-balance sheet model similar to the accounting for finance leases under MFRS 117.

Lessor accounting under MFRS 16 is substantially the same as the accounting under MFRS 117. Lessors will continue to classify all leases using the same classification principle as in MFRS 117 and distinguish between two types of leases: operating and finance leases. MFRS 16 also requires lessees and lessors to make more extensive disclosures than under MFRS 117.

The Group adopted the MFRS 16 using the modified retrospective method of adoption, under which the cumulative effect of initial recognition is recognised in retained earnings. The Group measured its right-of-use assets equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the statement of financial position immediately before the date of initial application (i.e. 1 July 2019). The Group does not restate the comparative information, which continues to be reported under MFRS 117.

The effect of adoption of MFRS 16 to the Group as at 1 July 2019 is as follows:

Consolidated Statement of Financial Position	Increase/ (decrease) RM'000
Assets Property, plant and equipment - Right-of-use assets	356,559
Liabilities Lease Liabilities	356,559

NOTES TO THE INTERIM FINANCIAL REPORT

#### Significant accounting policies

The standard requires the Group to recognise a right-of-use asset and a lease liability on the lease commencement date.

The right-of-use asset is initially measured at cost, and subsequently at cost less accumulated depreciation and impairment losses, and adjusted for certain remeasurement of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate as the discount rate. The lease liability is subsequently increased by the interest cost on the lease liability and decreased by lease payment made. In addition, the carrying amount of lease liability is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

- A2 The Group's operations are affected by major festive seasons and school holidays as well as the Muslim fasting month. In Malaysia, the major school holiday is traditionally scheduled during the second quarter, while certain festive celebrations fall during the second and third quarters of the Group's financial year. These holidays and festive celebrations will normally have a positive impact to the Group's operations in the second and third quarters of the financial year.
- A3 There was no unusual item during the financial period under review except for the financial impact arising from the novel Coronavirus ("COVID-19") pandemic as disclosed in Notes B1 and B2, and an impairment on goodwill of about RM2.35 million.
- As at 30 June 2020, the issued ordinary share capital of the Company was RM243,938,208.

B1 The Group is engaged in developing and operating the "Starbucks Coffee" brand in Malaysia and Brunei, developing and operating the "Kenny Rogers Roasters" ("KRR") chain in Malaysia as well as "Jollibean" and various brands in Singapore. The key factors that affect the performance of all food and beverage businesses include mainly the festive seasons, tourism, eating out culture, raw material costs (coffee bean, chicken, side dishes, soya bean and effect of foreign exchange on raw materials etc), staff costs and consumer perception.

The summary results of the Group are as follows:

#### Current quarter vs preceding year same quarter

The Group registered a revenue of RM111.57 million and pre-tax loss of RM28.54 million in the current quarter ended 30 June 2020.

The revenue and results for the current quarter under review was adversely affected by the outbreak of COVID-19 pandemic. The period of Movement Control Order ("MCO"), which came into effect on 18 March 2020, followed by the Conditional Movement Control Order ("CMCO") from 12 May 2020 till 9 June 2020 covered substantially the current reporting period. The Group experienced a significant reduction in sales and recorded negative same-store-sales growth during this period, as the Group was restricted from operating at its full capacity. Even though the Group's sales was recovering at a fast pace when Malaysia entered into the Recovery Movement Control Order ("RMCO") phase which started on 10 June 2020, the Group still recorded a much lower sales in the current quarter under review. The significant drop in sales caused a significant reduction in gross profit contribution, which was insufficient to offset the fixed costs (such as, depreciation and rental expenses) in some outlets. Consequently, the Group incurred a pre-tax loss in the current quarter under review.

In addition, the Group recognised an impairment loss on goodwill and property, plant and equipment of about RM2.35 million and RM1.15 million, respectively as the recoverable amounts are lower than their carrying amounts.

#### Review of results for the financial year

For the financial year ended 30 June 2020, the Group's revenue and pre-tax loss were RM634.72 million and RM7.60 million respectively. For the 14-month period ended 30 June 2019, the Group reported a revenue of RM788.98 and pre-tax profit of RM46.56 million respectively.

The Group's revenue and results for the current financial year were adversely impacted by the outbreak of COVID-19 pandemic and the imposition of the MCO as explained above.

In addition, the Group's results in the current financial year was also adversely impacted by the adoption of MFRS 16: Leases as disclosed in Note A1. Typically, under the MFRS 16 standard, the sum of the depreciation of ROU assets and the lease interest expense is higher than the lease rental expense specified under the previous standard MFRS 117 at the initial stage of the lease period. After the half way mark of the lease period, the sum of the ROU depreciation and lease interest expense will be lower than the lease rental expense under MFRS 117. The Group would have reported a pre-tax profit of about RM1.77 million, if the total lease rentals of all the leased outlets were accounted for under the previous accounting standard for leases.

The lower revenue and pre-tax loss registered in the current quarter was mainly due to the reasons mentioned in Note B1.

#### B3 Future prospects

The Covid-19 pandemic has resulted in unprecedented preventive lockdown measures of varying degrees, and these have adversely impacted the Group's operating results. Nevertheless, the Group is cautiously optimistic that the operating results of the Group will be satisfactory in the ensuing financial year ending 30 June 2021 with the gradual relaxation of the lockdown measures and recovery of the economy.
